## EDUCATION

**McMaster University** — **Hamilton, Ontario**
*B.A.Sc in Honours Computer Science Co-op* — *Expected Graduation, April 2030*

**White Oaks Secondary School** — **Oakville, Ontario**
*Ontario Secondary School Diploma* — *Sep 2022, Jun 2026*

- Ontario Scholar | Graduated with a 96% average

## EXPERIENCE

**vFairs.com** — **Oakville, Ontario**
*Quality Assurance (AI) Intern* — *Jul 2025 – Aug 2025*

- Performed QA testing on AI-driven product features for a global virtue events platform.
- Identified, reproduced, and documented software defects while collaborating with developers.
- Improved product reliability through structured manual and exploratory testing.

**AIHealth** — **Oakville, Ontario**
*Founder & Lead Developer* — *May 2024 – Sep 2025*

- Founded and led development of an AI healthcare platform, driving product strategy and technical execution.
- Designed system architecture, managed backend development, and delivered core platform features.
- Built and launched HealthBot, improving AI response quality and reliability through iterative testing
- Featured in Oakville News for community impact.

**WOSS Electrathon** — **Oakville, Ontario**
*Engineering Team Member* — *Sep 2024 – Jun 2025*

- Assisted in designing and assembling the frame of a competitive electric vehicle for the Electrathon competition
- Tested vehicle components and supported troubleshooting during build and preparation phases
- Collaborated with a multidisciplinary team to improve vehicle reliability and competition readiness

## PROJECTS

**HealthBot** — **Oakville, Ontario**
*Founder & Lead Developer* — *May 2024 – Sep 2025*

- Developed a full-stack AI medical assistant using JavaScript and MongoDB to deliver personalized healthcare guidance.
- Designed and implemented the application's frontend, backend, database architecture, and deployment pipeline
- Developed an intuitive user interface focused on streamlined navigation and improved user experience.

**PlacdAI** — **Oakville, Ontario**
*Founder & Developer* — *May 2026 – Present*

- Developing an AI interior design platform that generates personalized room concepts from user preferences and images
- Building a product recommendation system connecting AI-generated designs with real furniture and decor products

## ACTIVITIES AND LEADERSHIP

**Data and Machine Learning Club** — **Oakville, Ontario**
*Vice President* — *Aug 2025 – Jun 2026*

- Organized sessions and workshops on machine learning concepts, growing member engagement and technical skills

**Engineering Club** — **Oakville, Ontario**
*Executive* — *Sep 2025 – Jun 2026*

- Contributed to club initiatives bridging software and hardware engineering, supporting project planning and execution

**WOSS VEX Robotics Club** — **Oakville, Ontario**
*Lead Builder & Programmer* — *Sep 2024 - Jun 2025*

- Led robot programming, developing autonomous systems and troubleshooting hardware/software issues

## SKILLS

**Programming:** Java, Python, JavaScript, HTML/CSS, SQL, Node.js, React.js, MATLAB
**Tools:** Git, GitHub, VS Code, MongoDB, Node.js, REST APIs, Google Gemini API, OpenAI API, Supabase
